

2024-2025 Flexible Tuition Rates

The CoroRio vision is to transform the lives of children from ALL ethnic and socioeconomic backgrounds by giving them the skills, self-discipline, and confidence to succeed in music and in life. In an effort to better align ourselves with that vision, combined with the financial burden we know many families are currently facing, we have instituted a need-based tuition program. It is the desire of the MMI Board of Directors that every student who desires membership in CoroRio be able to participate, regardless of their family's financial means. We are asking each family to carefully consider their resources and make their monthly tuition payment an honest reflection of their ability to contribute to the organization and the music education of their child. We have faith that our community will rally around this effort to nurture all our young people through the gift of music, not just those whose families can afford it.

TUITION RATES

The following are tuition options for the 2024-2025 season. If your family does not qualify for TANF/SNAP rate and financial constraints do not allow you to make the monthly payments at the 75% rate, please reach out to Amy Touchstone (cororio@gmail.com) and she will work with you to set up monthly payments that are within your means. If the initial deposit (registration fee) is an issue, please follow the same process. The full tuition and registration rates shown are what it costs the MidSouth Music Institute to operate classes, produce concerts and pay staff. We will look for community support to help bridge the gaps so that children who wish to participate are able.
